Basic Information

- Place of Origin: Korea
- Brand Name: Doosan
- Model Number: DH70
- Minimum Order Quantity: 1 set
- Price: negotiable
- Packaging Details: Bulk or Container
- Delivery Time: 5-8 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 units per year

Product Specification

- Model: DH70
- Travel Mode: Crawler Type
- Engine Power: 45.8kw
- Maximum Digging Depth: 4060mm
- Walking Speed: 4.5/2.8km/h
- Engine Model: V3300-DL
- Maximum Digging Height: 6918mm
- Weight: 7000kg
- Highlight: Urban Development Used Doosan Excavator,
Used Doosan Crawler Excavator,
Crawler Type Second Hand Doosan Excavator

Product Description

7000kg Doosan Crawler Excavator with Crawler Type Travel Mode for Urban Development

Product Description:

Product Overview: Used Doosan Excavator

The Used Doosan Excavator is a high-performance and reliable piece of equipment that is designed for heavy duty excavation work. This excavator is part of the Doosan Crawler Excavator series, which is known for its superior quality and durability.

Our Product Intro

With a maximum digging height of 6918mm and a maximum digging depth of 4060mm, this excavator is capable of handling even the toughest digging tasks. It has a weight of 7000kg, making it a sturdy and stable machine that can handle heavy loads without any issues. The Used Doosan Excavator operates in a crawler mode, with a crawler type travel system. This allows for smooth and precise movements, even in rough terrain. This feature also makes it ideal for use in various construction sites, including rocky or muddy areas. The excavator is equipped with a 0.28m³ bucket capacity, allowing it to easily scoop and carry large amounts of soil, rocks, and other materials. This makes it an efficient and time-saving tool for any excavation job.

One of the key advantages of the Doosan Crawler Excavator series is its advanced technology and innovative features. The Used Doosan Excavator is no exception, with its advanced hydraulic system that provides powerful and smooth operation. It also has a user-friendly interface, making it easy for operators to control and maneuver the excavator.

Overall, the Used Doosan Excavator is a top-of-the-line machine that offers exceptional performance and reliability. Whether it's for construction, mining, or any other heavy-duty excavation work, this excavator will get the job done efficiently and effectively. With the trusted Doosan brand behind it, you can be sure that this excavator will meet and exceed your expectations.

Technical Parameters:

Doosan Crawler Excavator	Technical Specifications

Weight	7000kg
Travel Mode	Crawler Type
Model	DH70
Walking speed	4.5/2.8km/h
Maximum digging height	6918mm
Bucket capacity	0.28m³
Engine power	45.8kw
Maximum digging depth	4060mm

Applications:

Used Doosan Excavator DH70

The Doosan DH70 is a powerful and efficient crawler excavator that is designed to handle tough construction and excavation tasks. Made in Korea, this excavator is built to last and is a popular choice among construction professionals. With a maximum digging depth of 4060mm and a bucket capacity of 0.28m³, the Doosan DH70 is the perfect machine for a variety of applications.

The Doosan DH70 is a part of the Doosan Crawler Excavator series, known for its durability, reliability, and high performance. This series has been a top choice for construction companies around the world, and the DH70 is no exception.

One of the key features of the Doosan DH70 is its travel mode, which is a crawler type. This allows the excavator to easily navigate

through various terrains, including rough and uneven surfaces. The crawler type travel mode also helps to distribute the weight of the excavator evenly, making it more stable and reducing the risk of accidents.

The Doosan DH70 has a weight of 7000kg, which makes it a mid-size excavator that is suitable for a wide range of construction projects. Its compact size and maneuverability make it ideal for working in tight spaces, while still providing enough power to handle heavy-duty tasks.

The walking speed of the Doosan DH70 is 4.5/2.8km/h, which allows it to move quickly and efficiently around the construction site. This helps to increase productivity and minimize downtime, as the excavator can easily move from one area to another without any delays.

One of the most common applications for the Doosan DH70 is digging. With a maximum digging depth of 4060mm, this excavator is able to reach deep into the ground and remove large amounts of soil or debris. This makes it an essential tool for building foundations, excavating trenches, and other similar tasks.

Another common use for the Doosan DH70 is loading and unloading materials. Its bucket capacity of 0.28m³ allows it to easily scoop up and transport various materials, such as gravel, sand, and rocks. This makes it a versatile machine that can be used for both digging and material handling.

F & Q:

Xuanjue Serve For You, Best Quality And Lowest Price

Q1. What payment method?

Payment is negotiable

Q2. Will our company provide any service to the machine?

Yes! Before we deliver the machine, we will test, check, service, maintenance and clean it the machine.

Q3. What's the MOQ ?

MOQ is 1set. FOB or others can be negotiated.

Q4. What's the payment terms?

FOB or others can be negotiated.

Q5. Who pays the freight?

This is determined based on the payment method. We can either find a freight forwarder or the customer can designate a freight forwarder.

If you have any questions, you can call and send an email at any time and leave a message. We will answer you as soon as possible after seeing it.
