

PC55MR In 2021 Used Komatsu Excavator For Heavy Duty Digging 5945mm Max Digging Hight

Our Product Introduction

more products please visit us on used-excavatormachine.com

Basic Information

- Place of Origin: Japan
- Brand Name: Komatsu
- Model Number: PC55MR
- Minimum Order Quantity: 1set
- Price: 8000-20000 USD
- Packaging Details: Container,Bulk
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: About 5 units are supplied every month

Product Specification

- Engine Model: 4D88E-6
- Model: PC55MR
- Overall Size: 5550×1960×2550mm
- Rated Power: 28.5/2400
- Max Digging Hight: 5945
- Working Weight: 5160
- Capacity: 0.15
- Product Model: Crawler Excavator
- Highlight: Heavy Duty Digging Used Komatsu Excavator, PC55MR Used Komatsu Excavator, 5945mm Second Hand Komatsu Excavator

PC55MR In 2021 Used Komatsu Excavator For Heavy Duty Digging 5945 Max Digging Hight

Product Description:

Komatsu is a well-known brand in the construction industry, and its excavators are highly sought after for their superior performance and reliability. The Used Komatsu Excavator, also known as the Komatsu Digging Excavator, is no exception. This powerful machine is designed to handle the toughest digging and excavation tasks with ease. Equipped with advanced technology and a robust hydraulic system, the Used Komatsu Excavator is a top-of-the-line machine that offers exceptional digging capabilities. With a maximum digging height of 5945mm and a maximum digging depth of 3800mm, this excavator can take on a wide range of projects, from small-scale construction to large-scale excavation jobs. The Rated Power of the Used Komatsu Excavator is 28.5/2400 kW, making it one of the most powerful excavators in its class. This impressive power allows it to tackle even the most challenging digging and excavation tasks, ensuring that the job is completed efficiently and on time.

In conclusion, the Used Komatsu Excavator is a top-of-the-line machine that offers exceptional performance, efficiency, and durability. Its advanced technology and robust construction make it an excellent choice for any digging or excavation project. Whether you're in the construction industry or any other field that requires heavy-duty equipment, the Used Komatsu Excavator is a must-have for your fleet.

Technical Parameters:

Product Model	PC55MR
Rated Power	28.5/2400
Capacity	0.15
Overall Size	5550×1960×2550mm
Max Digging Depth	3800
Max Digging Hight	5945
Travel Speed	2.8/4.6
Working Weight	5160

Applications:

Komatsu PC55MR excavator is commonly used in various earth moving and digging projects. Its compact size and powerful performance make it suitable for both small and medium-sized construction sites. Let's take a look at some specific application scenarios:

With a maximum digging depth of 3800mm, the PC55MR excavator is a reliable choice for digging projects. Its high digging force and precision control make it suitable for digging trenches, foundations, and other types of excavations. The excavator's strong and durable bucket can handle a variety of materials, making it a versatile tool for different digging tasks.

It is also widely used as a heavy equipment for various construction and mining projects. Its sturdy and durable design, along with its powerful engine and hydraulic system, make it capable of handling heavy loads and tough terrains. With its overall size of 5550×1960×2550mm, it can easily navigate through rugged and uneven environments.

In conclusion, the Komatsu PC55MR excavator is a versatile and reliable choice for various construction and mining projects. Its compact size, powerful performance, and durable design make it suitable for different application scenarios. As a trusted brand in the industry, Komatsu's excavators are highly sought after by construction professionals around

the world.

Packing and Shipping:

Our Used Komatsu Excavator is carefully packaged and shipped to ensure safe and secure delivery to our customers. We understand the importance of protecting your investment and strive to provide the best packaging and shipping services possible.

Packaging Process

Before being shipped, our Used Komatsu Excavator undergoes a thorough inspection to ensure it is in good working condition. It is then disassembled and packaged in the following way:

All detachable parts are removed and packaged separately to prevent damage during transit.

The body of the excavator is wrapped in protective material and secured with straps to prevent any movement.

The packaged parts are then placed in a sturdy wooden crate for added protection.

The crate is labeled with the necessary information for easy identification.

Shipping Options

We offer various shipping options to meet the specific needs of our customers:

Ground Shipping: We use trusted carriers to deliver the excavator to your location.

Ocean Freight: For international orders, we ship the excavator in a container via sea freight.

Air Freight: For urgent orders, we can arrange for the excavator to be shipped via air freight.

Once the excavator is shipped, we provide our customers with a tracking number so they can monitor the delivery status of their order.

At Used Komatsu Excavator, we take great care in packaging and shipping our products to ensure they arrive at their destination in the best possible condition.

F & Q:

Xuanjue Serve For You, Best Quality And Lowest Price

Q1. What payment method?
